EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Lori Beardell and Maria Restrepo-Hartwig on September 28, 2004.

The application has been amended as follows:

On page 1 of the specification, first paragraph, the sentence of "The entire content of these applications is herein incorporated by reference." has been deleted.

Claims 2-3 have been canceled.

In claim 1, line 4, "80%" was amended to --90%--.

The amendment to the specification was to clarify that only the originally filed specification and claims of the parent applications may be incorporated by reference. The entire content of these applications would include the entire prosecution history and cited prior art references which may constitute new matter if incorporated by reference into the instant application.

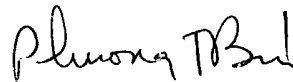

Applicant's traversals with regard to the 112, first paragraph rejections of record are persuasive in part. Accordingly, the claims have been amended to 90% sequence identity.

Art Unit: 1638
